## CUTTING TABLE FOR ROLLER BLINDS UK-2

REXEL UK-2 it's the second generation cutting table, using it one can produce blinds faster and simpler! Table construction is made of closed, high quality steel profiles with powder coating which provides longstanding and protection against corrosion for a very long time. Tabletop edges protected with PVC; this solution provides impressive tabletop durability. Brand new mechanical knife construction with high speed electrical motor helps to achieve very accurate fabric cut.

Table UK-2 can cut roller blinds fabric from rolls up to 3000 mm width. Tabletop illumination zone is an additional option that helps to inspect blinds fabric before cut.

Standard widths of post cutting table after cutting line are: 3100 mm, 3400 mm, 4000 mm.

### SPECIFICATIONS:

- Control panel with durable buttons;
- Tabletop illumination zone for fabric inspection;
- Improved manual positioner for 90° angle set;
- Pneumatic clamping line;
- Table is completely made of European materials;
- Energy chain for cutter cables protection;
- Two direction cutting ability;
- Round blade sharpening device;
- Cutting width: do 3000 mm
- Tabletop width: 3200 mm
- Tabletop length after cut-off line: 3100 mm or longer
- Whole width: 3620 mm
- Whole length: 3750 mm or longer
- Tabletop height: 900 mm
- Cutting speed: Min: 0,3 m/s, Max: 0,5 m/s
- Blade rotation speed: 4000 rpm
- Blade diameter: 108 mm
- Voltage: 230 V
- Wattage: 700 W
- Ultrasonic knife: -
- Mechanical round knife: Yes
- Fabric clamp: Pneumatic, one side
- Screen: Yes, optional
